FOR

All of the inventions presented here are patented or patent pending.

There are proof of concept prototypes and industry experts positive feed back on probable success in the market place.

Each inventor needs you, the Investor, to revive the innovation process and save the American economy.

Investing in the Da Vinci Invention Investment Fund I constitutes direct partial ownership in each of these inventions. You do not pick one. They are a family!

Investing **early** has several advantages for you. For more information, contact us at Info@ArchimedesOffspring.com or call 435-799-7793

CARGO CADDIE

Organize your SUV and CUV cargo space in minutes.

Inventor

Trunks of SUVs and CUVs can be difficult to keep organized. At any time, an SUV/CUV trunk stores groceries, kids sports equipment (bats, helmets, sticks, cleats, balls), folding chairs, bags, strollers, coolers, umbrellas, and many other day-to-day items.

Before

After

- Cargo Caddie (CC) is made from metal reinforced plastic, making it durable and sturdy.
- Cargo Caddie takes advantage of the significant height of SUV and CUV trunks -- adding a "new level" of storage space
- Cargo Caddie comes with built in collapsible dividers that keep items from sliding around in transit.
- Cargo Caddie folds up flat against the back seat when not in use.
- Cargo Caddie installs easily-- no tools or hardware necessary
- Cargo Caddie features an extendable restraining bar to secure items while in motion.
- Patent Pending

POLICE CUFF AUTO

Patent Issued

Inventor

What make Police cuff Auto different from rest of others
Are

Cuff A and B can be detached once cuff section B are attached to subject, cuff section A can detract to other hand and once on the subjects other hand it retract only with one way locking mechanism.

Line are stronger than conventional Chain cuff which holds 500lb.
Specially made line holds 600lb.

1. Reduce stress.
2. Reduce damaging publicity.
3. Reduce insurance claim.
4. Reduce insurance fee.
5. Reduce hospital fee.
6. Reduce internal investigation.
7. Reduce workman's comp claims.
8. Build better public relation.
9. Saves lives.
10. Save careers.
11. Save moneys.

Police Cuff Auto eliminate four or five police officers to force subjects hands together to put a conventional handcuff their using today

	<u>Police Cuff Auto</u>	<u>ASP</u>	<u>PeerLess</u>	<u>Smith & Wesson</u>
• Easily applied	Yes	No	No	No
• Adjustable	Yes	No	No	No
• Automatic	Yes	No	No	No
• Retractable	Yes	No	No	No
• One way locking	Yes	No	No	No
• Reduce excessive force	Yes	No	No	No
• Reduce excessive force cost	Yes	No	No	No
• Reduce liability issue	Yes	No	No	No
• Reduce liability cost	Yes	No	No	No
• Reduce stress	Yes	No	No	No
• Quality	Yes	N/A	N/A	N/A
• Item selection	Yes	N/A	N/A	N/A

Accurate Blind Spot Imaging

Easy Fasten Blind Spot Mirrors

Patent Pending

Inventor

**Top Mounted
True View
Provides
The Same
Accurate
Blind-
Spot
Imaging!**

True View out performs radar actuated blind spot indicator lights and sonic chimes which do not provide any real time imaging, much less accurate real time imaging. Due to US regulations, all driver side exterior OEM mirrors on vehicles manufactured in the US must have flat lenses. True View meets this regulation as an OEM driver side blind spot mirror.

True view also out performs camera-monitor based systems. It is lower in cost both for the manufacturer and the consumer. With True View blind spot imaging occurs in the vicinity of the driver's side exterior mirror, which is intuitive, versus projecting the image to the interior main rear view mirror or central console monitor which can distract the driver's attention from the encroaching vehicle. A single rain drop or snow flake can render a camera lens ineffective where as True view flat mirror functions during rain and snow.

True View™ is: *Easy to install *Easy to use * Has Low manufacturing costs

True View™ is a major improvement over fish eye and other curved lenses which distort the apparent size, distance and relative speed of approaching vehicles.

True View™ provides accurate imaging of apparent size, distance and relative speed of approaching vehicles.

True View™ is a major improvement over radar actuated indicator lights and sonic chimes which just do not provide enough information for the motorist to make split second decisions.

True View™ improves driver safety over existing blind spot mirrors and radar based technology

True View improves driver ergonomics. No having to twist your torso to look over your left or right shoulder to get accurate imaging of approaching vehicles.

True View is patent pending.

PRECISION HEALTH

Design is an aesthetically pleasing quality product that addresses the end user's total daily health regimen with precision. This is the most simplistic, efficient medical organizer to date: no batteries, no electricity, no apps needed!

Patent Pending

INVENTOR

THE ABILITY TO CHOOSE YOUR OWN TIME TOTALLY ELIMINATES ANY FEAR OF MEDICINE INTERACTIONS!

- The end user is now able to address all their health concerns in one simplistic organizer including, but not limited to, their prescription drugs, vitamins, testing, inhalers, eye drops, etc.
- The slider located at the top of the organizer ensures that the end user will never forget any part of their daily health routine.
- Our timesaving one compartment, one type of medication, fill on demand system removes the need for weekly/monthly filling.
- Four easy steps to set up
- The optional repositionable labels located on the face of the organizer can be moved as medical needs change
- The end user can now choose their own time for ingestion, this allows for intake staggering and removes the fear of interactions.
- This portable compact organizer can be taken to your Doctor for easy review of your medications.
- There is a reorder reminder located at the bottom so the end user will never run out prior to being reminded to refill.

Da Vinci Vetted Projects

Patent Pending

A key component to pandemic mitigation is copper which has documented anti-microbial properties. The science behind this key property is thoroughly documented in peer reviewed research.

The Copper Microbe Stopper provides flexible coatings over existing surfaces so there is no need to replace entire railings with a copper railing—or hundreds of door handles with copper door handles. Benefits include:

- ◆ Destroy microbes 24-7
- ◆ Easy to install over a variety of high touch surfaces
- ◆ Cost Effective versus replacing existing surfaces with copper surfaces

THE **New Stick** U UNMATCHED CAMPFIRE COOKING

The Best Campfire Cooking Utensil!

**Along with solving old problems,
The New Stick** Patent Pending

allows for a whole new cooking experience.

Now you can cook at the camp fire...

The New Stick improves campfire cooking by allowing for even heating throughout-
No more burnt ends and raw ends.

**It solves all of the problems of camp fire cooking that came from
using the old hot dog stick.**

Burnt mellows are a
thing of the past.

Sad face boy

Half cooked and burnt dogs
too.
